MEMORANDUM FOR:

25X1

SUBJECT:

Communist China Targets

25X1

25X1

1. I have transmitted to [redacted] the April 13th memorandum from [redacted] on the Communist China targets, attached to which is the summary of the findings of the IPC.

2. You will note that where an "x" appears opposite the name of an agency submitting a target there has been disagreement between the agency noted and one or more of the members of the working group.

3. Would you three be good enough to get together and let me have your advice as to how you feel I should vote on each of these questions.

4. Naturally I would appreciate any other advice that may come to your mind on this list. It is my understanding that once agreement has been reached as to in which paragraph in DCID 4/2 each of the items belongs, this exercise will be concluded and the initiative then moves to FI to consult with us if, as, and when necessary.

JAMES Q. REBER  
Assistant Director  
Intelligence Coordination
